

Habitat for Humanity of West Central Minnesota
Site Supervisor Opportunity

Take advantage of the chance to use your organizational skills in a unique way. As a site supervisor, you will be in charge of bringing a Habitat house from footings to finish. Our site supervisor volunteers come from all stripes. We seek and welcome anyone with the willingness to navigate a building project and the strong desire to work with a family on the construction of their home.

We are currently looking for a Site Supervisor or Co-Site Supervisors for the Willmar building projects to start approx. May 1st, 2010.

This position allows you to review plans, specifications, and construction sheets; coordinate the work of subcontractors and labor; monitor the materials supply; oversee the training of volunteers and partner family members; ensure compliance with OSHA regulations, meet building code requirements and build to HERS rating standards; and maintain safe building conditions. Technical assistance with “green build” or HERS rating provided. Although the site supervisor role handles all facets of construction, it also involves verbal communication skills and an ability to work independently as well as with volunteers. The site supervisor candidate need only be willing to learn and ready to work. A stipend of \$2200 is offered to provide for incidental expense the site supervisor may incur.

Habitat for Humanity West Central MN has new builds coming up, and we are looking for dedicated, energetic people to lead them. Please contact the Habitat for Humanity West Central MN office for more information.

You can make a difference!
